Personal Profile

I am a 23-year-old, recent graduate, with a first-class honours degree in Computer Games Technology looking for a junior position in the gaming industry. For my dissertation, I developed a working 3D collision detection system using my version of the GJK algorithm, written in C++. This helped me develop my knowledge of C++, Visual Studio, Microsoft Word and source control.

I balanced my time at the university with a career as a Bar Supervisor where I learned to perform efficiently under pressure and work to a strict schedule all while managing and supporting the team I led.

Key Skills

- C++ Educated
- Experience Using C# and Java
- Experience working with IDE's: Mainly Visual Studio (also NetBeans & WebStorm)
- Experience Using source control (GitHub: Including Git GUI and Git Bash)

Employment History

Revolution Bar Group: Bar Supervisor
